Sheffield and Hallamshire Girls County League
2014/2015 Season

SMS Text Results and Match Statistics

The email address and mobile phone number for all Team Managers registered to the league (as per league application and recent email response) have now been entered on the FA Full-Time system.

SMS Text Results

During, or just before the start of a game the Full-Time system will send a text message to each registered mobile number reminding them to send in the result.
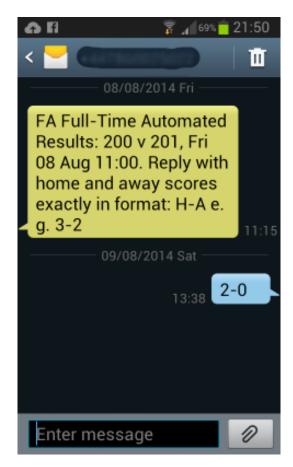

After the game BOTH home and away clubs should reply to the message with the score in the same format. The text message received tells you how to respond (see sample image)

Occasionally the text message may also ask you to enter a team code if you are registered for more than one team (an example will be given in the text message)

If you do not receive a text message before or during the game, please notify your registrar with the result (via text message or email) and let them also have a valid mobile number they can update the system with for future games.

Please send your result within 3 hours of the game ending.

The result of the game will be available to see on the FA Full-Time website.
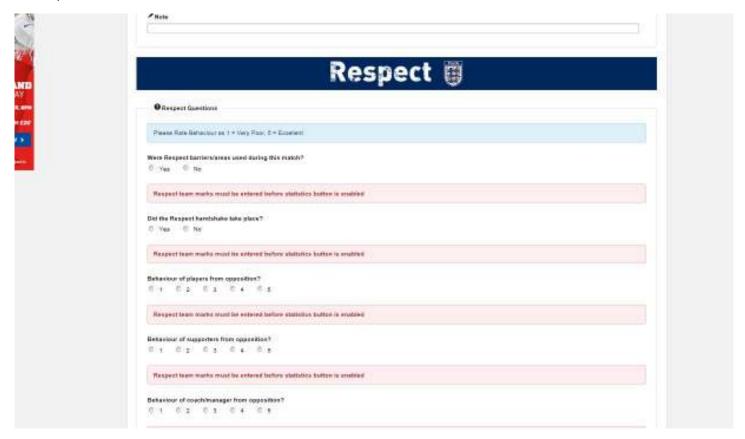

Match Statistics

All registered Team Managers will be sent a username and password before the start of the season allowing them to enter Referee marks, answer Respect Questions, provide team sheet and update player statistics.

A default password will be issued; we ask that managers change their password when first logged in.

The FA Fulltime Team Managers guide (available for download from the website) gives detailed instructions on how to enter the above.

The respect questions must be answered before any statistics can be given (see sample image below)

Respect

Respect Questions

Please Rate Behaviour as 1 = Very Poor, 5 = Excellent

Were Respect barriers/areas used during this match?
○ Yes ○ No

Respect team marks must be entered before statistics button is enabled

Did the Respect handshake take place?
○ Yes ○ No

Respect team marks must be entered before statistics button is enabled
